

INTRODUCING THE

# CellFX® System

POWERED BY NANO-PULSE STIMULATION™ TECHNOLOGY

A new FDA-cleared multi-application platform for difficult-to-treat benign skin lesions. The CellFX System uses an innovative non-thermal technology that uniquely works at the cellular level where the skin problem resides. The CellFX procedure is a quick and elegant method to clear cellular-based lesions while minimizing risk of scarring.<sup>1,2</sup>

## The Wow is in the How

The CellFX System uses an entirely new energy modality called Nano-Pulse Stimulation (NPST™) technology that uses ultrafast, high-amplitude electrical energy pulses to clear cellular structures while sparing surrounding non-cellular dermal foundation.

### CELL-SPECIFIC

- Affects cells and only cells
- No effect on non-cellular collagen foundation

### UNIQUE MARGIN CONTROL

- Ability to reach cellular structures in the treatment area per tip selection
- Naturally seeks where abnormal cells stop and healthy non-cellular dermis begins

### NON-THERMAL

- Non-thermal energy completely unlike any other modality, including lasers, cryo and RF
- Minimizes risk of thermal damage, helping to provide favorable healing response<sup>1,2</sup>

*The CellFX® System is indicated for dermatologic procedures requiring ablation and resurfacing of the skin.*

# CellFX System

## CellFX Console

Designed for ease of use, portability and simplicity

Tunable procedure settings to address various treatment needs

Utilization-based business model enabled by its internet connectivity to a proprietary Pulse Biosciences cloud network

## CellFX Handpiece

Multi-use handpiece lets you control the delivery of pulses ("cycles")

## CellFX Treatment Tips

Range of single-patient use treatment tips to accommodate a variety of lesion types

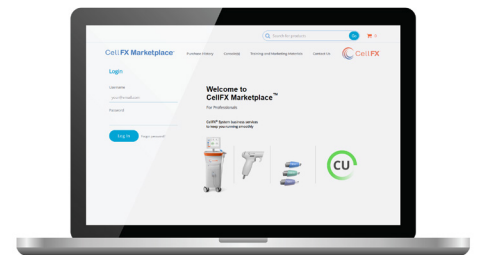

Customized procedure settings based on treatment tip being utilized

|         | Area of Treatment Tip |
|---------|-----------------------|
| 1.5 [2] | ○                     |
| 2.5 [2] | ○                     |
| 5 [2]   | □                     |

## CellFX Marketplace Customer Portal

One-stop destination for CellFX System business services:

- View CellFX System usage history and session summaries
- Purchase treatment tips, cycle units and replacement parts
- View purchase history and more

## CellFX Customer Support

833.257.3393 (7:00am to 5:00pm PT, Monday-Friday)
